PROFESSIONAL SUMMARY

Full-stack engineer with 1+ year of experience shipping .NET + React applications at scale. Achieved 95% sprint on-time delivery, cut page load times by 30%, and managed Azure cloud infrastructure for a live SaaS platform. Azure Fundamentals certified. Focused on clean architecture, scalable REST APIs, and CI/CD automation.

TECHNICAL SKILLS

Languages: C# · JavaScript · TypeScript · Java · C++

Frontend: React.js / React.ts · HTML5 · CSS3 · Material UI

Backend: .NET / ASP.NET Core · Node.js / Node.ts · REST APIs · Web API

Databases: SQL Server · MySQL · MongoDB

Cloud & DevOps: Microsoft Azure · Azure DevOps · App Services · Azure Functions · VMs · CI/CD · GitHub Actions

Tools: Visual Studio · VS Code · Android Studio · Git · GitHub

EXPERIENCE

Associate Software Engineer · Triveni Global Software Services LLP

June 2025 – Present · Surat, Gujarat

- Built and maintained full-stack web apps using .NET MVC, Web API, React, and Node.js with clean, scalable architecture.
- Achieved 95% on-time sprint delivery by creating and tracking task items in Azure DevOps.
- Optimized SQL queries and React components, reducing page load time by 30% across key application modules.
- Supported Azure infrastructure deployments, configuration updates, and release cycles for production environments.

Software Engineer Intern · Triveni Global Software Services LLP

Jan – May 2025 · Surat, Gujarat

- Built and integrated REST APIs using ASP.NET Core and .NET Web API to enhance system data flow.
- Developed responsive React.js UI components and resolved frontend/backend bugs during active sprint cycles.

PROJECTS

CalcuQuote — elisaindustriq.com/calcuquote

Feb 2026 – Present

Stack: .NET Web API · React · Azure VMs · App Services · Azure Functions

- Monitored and optimized Azure VMs, App Services, and Functions ensuring high availability for a live SaaS platform.
- Implemented Azure cost and security recommendations, improving resource utilization and compliance posture.
- Used Azure monitoring tools (logs, alerts, health checks) to reduce incident detection and resolution time.

eDocuSight

July 2025 – Jan 2026

Stack: .NET Web API · React.js · SQL Server · Azure DevOps

- Developed secure REST APIs and responsive React UI components for a document management platform.
- Delivered all sprint features on schedule using Azure DevOps task tracking and structured release cycles.

EAZY-TRIPZY — github.com/aniket9016/EAZY-TRIPZY

Jan – May 2025

Stack: ASP.NET Core · React · Material UI · SQL Server

- Built a full-stack tourism booking platform (hotels, flights, cars, restaurants) with JWT auth, real-time booking logic, and User/Admin dashboards.

Plantree E-Commerce Android App — github.com/aniket9016/Plantree-E-Commerce-Application

Jan – June 2023

Stack: Android · Java · Firebase · Biometric Auth

- Implemented biometric auth and end-to-end encryption; integrated user behavior tracking for data-driven product improvements.

EDUCATION

Master of Computer Applications (MCA) — Veer Narmad South Gujarat University, Surat

2025 · CGPA: 6.9

Bachelor of Computer Applications (BCA) — Veer Narmad South Gujarat University, Surat

2023 · CGPA: 7.8
